Re: DOGM No. S/023/044 - Mineral Rock
Mining

Dear Mr. Sprunger:

We have reviewed a copy of your Notice of Intention to Commence Small Mining Operations. We received a copy of the notice from the Bureau of Land Management on April 18, 1995.

This project is for mining rock mineral in Juab County. This operation will involve less than 5 acres and water will not be used in the operation.

It does not appear that the operation, as described, will have any water quality impacts. At this time, no permit is required from this office for the stated activities. However, you must advise us for review of water quality impacts, if your activities generate waste water which would be discharged to the ground or surface waters of the State.

If we can be of further assistance, please contact me or Mr. Lyle Stott of my staff.

Sincerely,

Kiran L. Bhayani, P.E., D.EE., Manager
Design Evaluation Section
